Dear Texas A&M Kingsville Civil Engineering Student,

Every year, the San Antonio ACI Chapter does its best to provide funding to civil engineering students at Texas A&M Kingsville. This ACI scholarship is one that the San Antonio ACI Chapter prides itself on and plans to keep in place to continue to help facilitate the financial needs of engineering students looking to make a career in the field of civil engineering. The student that receives the scholarship will receive a minimum of \$2,000 but depending on the amount of scholarship money available from the chapter, this amount may increase.

An additional form is available for the San Antonio ACI Chapters Student Scholarship application. The ACI San Antonio Chapter provides scholarships to multiple majors at multiple schools that are all focused on the civil engineering, concrete industry management, and construction management programs.

The San Antonio ACI Chapter has minimum requirements to meet the scholarship qualifications but will consider every application received even if the minimum requirements are not met in their entirety. We encourage every student to apply for this scholarship regardless if you feel like you will not meet the requirements in comparison to other students attending UTSA.

Thank you for taking the time to apply for the San Antonio ACI Chapter student scholarship. If you have any questions, please feel free to e-mail the San Antonio ACI Board – Scholarship Committee Chair at [john@capagg.com](mailto:john@capagg.com), or text at (210) 872-7895.

San Antonio ACI Chapter  
Scholarship Chair
